DUAL - PURPOSE FERTILIZERS

Cobrax 91%

- ❖ A broad-acting organic copper fertilizer that works as a multi-purpose compound (prevention and nutrition).
- ❖ It contains copper in a form that can be absorbed and penetrates the leaves, which is reflected in the rates of use and the effectiveness of the effect.
- ❖ It treats the symptoms of copper deficiency and increases the plant's resistance to fungal and bacterial diseases.
- ❖ It is considered a safe compound and can be used within organic farming programs.
- ❖ By making copper available, it works as a stabilizer for plant dyes, and in the conversion and formation of carbohydrate
