

STARCO 80% WP

Pesticide composition: A fungicide containing 80% phostyl aluminum (w/w) in the form of a wettable powder.

Effect of the pesticide: A ready-made fungicide with a preventive and curative effect on root rot diseases

Pesticide properties:

Starco 80%: It works on fungi indirectly, as it supports the plant's natural defenses against fungi.

Starco 80%: A unique method of action that helps prevent the formation of resistant strains of the fungus.

Starco 80%: Highly systemic, as the pesticide moves inside the plant from bottom to top and from top to bottom.

Starco 80%: It is used to combat fungal diseases that affect plants, such as root rot

Starco 80%: Do not mix with alkaline or acid pesticides. Do not mix with copper pesticides. Do not mix with foliar fertilizers.

Starco 80%: Non-toxic to plants according to recommended proportions

Starco 80%: Harmful if swallowed, causes eye irritation. Harmful if inhaled.

Method to use in the following table:

Corps	Pests	Usage rate	The period between sprays
Ornamental plants	Root rot	90 gm / 100 L water	6 Weeks after the last watering
